1 yellow handmade brick 1.2 grams

Oyster shell 31 - 19.0 grams

1 cement fragment - 170.3g ** (originally ~ 1700 g?)

* ~90 % of red brick removed to 18ST390 on-site brick discard pile. 275.5g of brick retained. 1/20/00 JK

** This probably represents a 10% sample, since brick + cement were sampled in this lot by Doug Lister + Jen Kehs in 2000. Sampling wasn't added to catalog at that time, but writing on cement bag matches the brick bag, which must be a sample since only 275.5g and no brick bat were present.
